Local and Personal.

—Farmers, call with your produce at M. B. SHAW'S Big Store.

—Mrs. Cook has returned to Oxydon, Ky., accompanied, as far as Fulton by her sister, Mrs. Best Davis.

—A large number of our people, old and young, went over Thursday eve to the opera at Union City.

—Miss Julia Emerson, a charming young lady, of Columbus, was the guest of Miss Marie Stearns, this week.

—The upper river is again clear of ice, and navigation resumed. The next frosts will be an overflow. Look out, it is coming.

—Chancellor Kirkland, of Vanderbilt University, Nashville, was in Hickman, Tenn., and lectured before the pupils of Hickman College. He was one of the most distinguished educators in the South.

See Buchanan's Cost Prices on Shoes and Hats.

—The Fulton Circuit Court convened on Monday for a two weeks' term. There are only a few new cases docketed, and the indications are for a short session, though there are several important cases which if entered into will require the full time.

—Hon. Jo Blackburn was elected U. S. Senator, Tuesday, to succeed Hon. Wm. Lindsay. The Republican vote given to ex-Governor Bradley. The vote in the Senate stood 22 to 18 and in the House, 87 to 47, making a total of 40 to 18. One Blackburn absent, and anti-Blackburn democrats absent.

—The steamer Ford Herold arrived at night and on her manifest were two items. One was 4,000 socks of commission consigned to L. P. & W. S. Ellison, and the other was 1,000 pairs of fish, 3,000 pounds for Hickman. The fish, the latter being a record for the fish line and the former being equal.

—Various ways have been suggested for celebrating the year "1900" in that year. Some write it "00," others simply "00," or, for instance, "1900." But there are objections to this way of doing it. It is a number of them, stands for nothing, and gives no meaning to the year.

—The year "1900" is the only one in which the figures of the day of the month are the same as the figures of the year. For these reasons and others that must be mentioned, the best method seems to be to write the first two figures of the year "19," or as "19-00," which would probably meet all objections.

Small Pox in Hickman.

What is believed to be a case of small pox or Chin chub, came in Hickman, near the old depot. We understand that it is not a clearly defined case, but the authorities out of abundant precaution placed guards about the house to prevent any ingress or egress. The affected person is a negro by the name of Nickens.

TRUSTS.

There are Now More Than Five Hundred in the United States.

There are now over 500 trusts in the United States which control almost every known article of commerce in the United States except a few agricultural products. It is predicted by students of economics that these combinations will become universal unless checked by legislation. The trusts, now in existence are said to have property to the value of \$3,000,000,000, capitalized at \$8,000,000,000. In other words nearly two-thirds of these concerns is water. The essential feature of a trust is monopoly. It has power to fix values by first and to set a price on its products without reference to competition. All the old laws of trade have been abolished, or at least appear to have been. The trusts put down the price of articles they have to sell in spite of the law of supply and demand. The remarkable increase in prices during the past twelve months is due very largely to the arbitrary decision of the trusts. It is just and fair to concede that part of the increase is due to a reaction from the low prices of war years, but out of which the country has just emerged, but that many articles have doubled and even tripled in value is the result of artificial combinations. The people are now paying 20 to 200 per cent more for all kinds of goods than they did a year ago. Manufacturers of articles have increased in price out of all proportion to farm products.

NO WOMEN OFFICE HOLDERS.

Atlanta, Ga., Jan. 8.—The law of the state which prohibits the holding of any public office by a female was invoked by Gov. Chandler yesterday when he received from the Georgia State Board of Education a resolution to appoint Miss Blanche Brackett, who applies for commissioner of deeds for Georgia, to the state of Massachusetts. The resolution accompanying the application was of the highest character and indicated that the applicant had acted in the capacity of commissioner in the state of New York, New Jersey and several of the eastern states. No office under the control of the state however, can be occupied by a woman except by special act of the legislature.

The Churches in 1899.

The current number of the Independent contains a series of articles written by prominent clergymen of the different denominations with reference to the work and condition of the bodies to which they are attached. Tables of statistics are added, giving the number of ministers, choruses, and members. These figures are not exact, but are fairly correct in all cases, but only the best obtainable. Editorial comment is added, in which the opinion is expressed that the tables are "with in the truth."

The grand total of membership of the different religious bodies, mostly Christian, is 27,710,000. By the census of 1890 the membership was 26,612,806, so that there is an apparent increase of over 1,000,000 or about 24 per cent. The Independent says that even the gain in population should be as great as in the last decade that it would not exceed 20 per cent, which would leave the churches 14 per cent ahead. In fact, however, the increase in population in the last decade was nearly 25 per cent. The Independent puts the population for this year at 70,000,000, a gain as is estimated of 8,000,000, or about 13 per cent.

Col. W. M. J. BRYAN is coming to Frankfort on January 16th to witness the election of the Hon. J. C. S. Blackburn to the United States Senate. He will deliver an address to the General Assembly. It is probable he will be given a banquet.

The Kentucky Prison Commissioners are preparing to give the convicts some solid grub. They advertised to receive several loads of food for the two months' supply for the two prisons, and the following is the bill of fare they wanted to contract for: Beef, 110,000 pounds; mutton, 100,000 pounds; flour, 300,000 pounds; sugar, 25,000 pounds; molasses, 5,000 gallons; coffee 15,000 pounds; for 38,000 pounds.

10 Years for Harrell.

Senator Harrell is the man who exposed John Whalen in the attempt to bribe him, claiming that he (Whalen) deposited in box 550, in the Louisville Trust Company's vault, \$4,000 to be Senator Harrell's money when he refused to go into the Democratic caucus and help to down Goebel. And now some of the politicians say that Senator Harrell should be given ten years in the penitentiary because he must have in some way or other caused Whalen to believe that he accepted the bribe, or else Whalen would never have parted with his money. Wonder how these people think bribery and corruption can ever be exposed or punished unless some one having personal knowledge of such transactions does the exposing. And how often would there be exposures if 10 years in the pen were the reward for exposure? If Whalen is proven guilty he is the man who should be given 10 years.

Whalen has had a warrant issued for the Senator, and he has been arrested and has given bond. Whalen claims that he obtained the money from him by false pretenses.

To Suit Mayor Weaver.

The Louisville Commercial, the Republican State organ, calls upon the City Council, now Republican by a safe majority, to throw Mayor Weaver out of office. It says to throw Weaver out will help to keep Goebel out. It says further that "Whalen confessed during the progress of the recent campaign to practically every outlet charged against him, and by which Mayor Weaver and the former Council were elected. In the last State election Weaver supported Goebel, and Whalen championed the Brown ticket, and hence they Whalen peached. We don't know how all this is, or may be, but of one thing there appears a certainty, and that is that Whalen is a spy and has been for years a double-deep political rascal, and Louisville and the State—Republicans and Democrats—should unite for his decapitation and proper punishment in the State penitentiary."

THE PHILIPPINES UNDER SPAIN.

After Spanish authority had been established in the Philippines there were, between the years 1603 and 1660, four terrible massacres. In each of which nearly 30,000 people were killed; that the attacks of Manila literally ran blood that in 1763 there was a massacre of 7,000 Chinese, and other foreigners, and as late as 1820 the natives and Spaniards turned on the Chinese and Japanese, Dutch and English, and slew other thousands, and in those days of Spanish misrule there was slaughter by pirates, slaughter by soldiers, and slaughter by natives. Coming down to the rebellion of 1896-97, the Inter-Ocean states that "about 50,000 natives" were killed in the first year of the war. Many of them fell in battle, but not a few of them were shot down as prisoners. Work in and work out the Spaniards were wont to shoot a score of prisoners a day on the Luneta of Manila. Under Spanish rule, sixty every day were shot down and sent out the Chinese and Japanese were wont to shoot a score of prisoners a day on the Luneta of Manila. Under Spanish rule, sixty every day were shot down and sent out the Chinese and Japanese were wont to shoot a score of prisoners a day on the Luneta of Manila.

STATE TREASURER DAY is said to be to be lighted because of his age. It is claimed he is only twenty-eight years of age and the law requires the Treasurer to be thirty. The proof is said to have been obtained from his marriage license.

It is said that there are now 90,000 Boers in the field against 60,000 British soldiers; and it is stated by the New York Journal and Chicago Tribune's correspondent at Cape Town, that the British army must be raised to 100,000 men if it is to make any headway against the boogymen.

THE STATE CONTESTS

Two State Governments Probable

All the details are in preparation for the contests for the offices of Governor and Lt. Governor before the Kentucky Legislature. The contest committees are organized, but no evidence is yet taken. The grounds for the contest have been heretofore published in the COURIER, and the Courier's opinion and apprehensions given. The Republicans assume that the Democrats, having a majority in both Houses will quickly, and from strictly partisan reasons, depose Governor Taylor and Lt. Governor Marshall, and proceed to inaugurate Goebel and Beckham in their stead. Some leading democrats express the same opinion.

Here comes the trouble. The Republicans assert that they will not vacate these or any of the State offices, but will continue to exercise the functions and authority. And there is no earthly doubt but that when Goebel is inaugurated, backed by both Houses of the Legislature, that he will exercise the functions of that office, and the Senate bring Democrats to the Democratic Lt. Gov. will be recognized by the majority of that body. This will give the Democrats the governorship and the law making branch of the State government. But then the Republicans are already in possession of the offices, the official seals, all the State records, &c., and they say they will never surrender them except by force. It is hardly possible that either side will resort to actual force, though Taylor could call out the militia, and so could Goebel, and presumably some of the partisans of either would respond. This is hardly possible. But the reasonable expectation is that the affair would be carried into the Supreme Court of the State, and some predict to the U. S. Courts. In the meantime everything would be involved in uncertainty, turmoil and trouble.

What About the Bribery?

The times when a political convention could meet without the suspicion of pecuniary corruption, and Kentucky specially was proud to make such boasts. In the olden times to make such a charge against a public man meant to offer your life in substantiation, for you were very sure to be called upon to answer by the code.

But to present politics charges are of daily occurrence; and there seems no doubt but that the charges are true in many instances. There doesn't seem to be much doubt in the minds of either Republicans or Democrats but that John Whalen attempted to bribe Senator Harrell to vote against Goebel and that he placed the \$4,500 in that now famous box for that purpose; and no one seems to doubt but that Senator Clark, of Montana, bought his seat to the United States Senate. But what is to be done about it? The people don't approve such things, but they are all too busy or too partisan to seem to care much. We, the people, "indignate" when we read such exposures and then lose sight of it in a few weeks and that is all.

The Southern Field, the Immigration Journal of the Southern Railway, observes that there are several settlements of German people already established at various points on this line, and that recently some Germans from Wisconsin purchased a large tract of land at Southgate, Va., where it is intended to establish a new settlement. The residents engaged in farming and manufacturing. The more Germans that come to the South for farming and manufacturing the better. They are an enterprising and law-abiding people and make good citizens wherever they settle.

The price of white paper used for printing newspapers is still going up. It is about thirty-three and a third percent higher than it was a year ago.

Many first-class weekly papers—particularly country papers—which have been sent out for a dollar a year, are raising the price to \$1.50. There is no profit in publishing a good country paper at one dollar a year.

A recent number of a London paper contains this advertisement: "Wanted, a man of light weight, who fears God and can drive a pair of steady horses. He must, Lord willing, arrive at 7 o'clock in the morning, obey his master and mistress in all lawful commands, sing songs and join the household prayer, look after the horses, occasionally play on the table."

A bill has been introduced in Congress providing for the coinage of the three-cent piece, which was discontinued by act of Sept. 26, 1860. To remove the objection attaching to the old coin, viz: one of mistaking for the time the new coin, it is to be made of nickel, of the size of the bronze cent, although thicker. In the center is to be a hole one-fourth of an inch in diameter. This will make the new coin easily distinguishable by sight or touch.

The members of Congress have been notified that the Agricultural Department is now ready to fill their orders for seed distribution. The seeds are divided into five classes: Vegetable, flower, tobacco, cotton and lawn seed. Each Congressman is entitled to some of the five kinds of seed, but by trading with other they receive the kind best adapted to their section. In this way it rarely happens that a member dispenses his regular proportion of the five kinds. The members of the House from the city districts are furnished with the usual quota of seed, which is readily exchanged with the members from the rural districts for documents.

FORSAKING FRIENDS FOR PORN.

Senator Kyle, of South Dakota, is one of those who apostatized from the Republican party a few years ago and joined himself to P. Pulliam. Following the example of Senator Jones of Nevada, who quit the Republican party for the sake of silver, he has returned to his first love, events having satisfied him that free silver is not what the country needs. These are just two conspicuous examples of a general truth which has been so often demonstrated that it would not be necessary to even refer to it. It is a truth which applies equally to individuals and to parties and it is, that one cannot afford to slap his friends in the face or the back of making over to his enemies. The Democrats in party in the campaign of 1896 purposely alienated many of its friends, expecting to win from the ranks of its enemies more strength than it lost. These new allies aided with it through one campaign, without doing it any good, and in little assurance that they will be with it in another. Meanwhile, the old friends, upon whom it turned its back for the sake of what it thought were new ones—where are they?

Fanned the Leg Chalk.

At the recent election a county Democrat thought he had his colored tenant driven to the point where there was no mistake about gung straight snail the chicken. When Sam emerged from the polling place the anxious Democrat inquired if he had fanned it all right. "Boss, I couldn't f'nd out chicken; but I sicks it right under his house!"—Hancock Clarion.

"Honest Jack" Hendrick.

John K. Hendrick leaves to-day for Frankfort, where he will begin the work of contest as chief attorney for the minor offices. He will be busily engaged for some time, and is confident that he will out the Republicans and seat the Democrats. Mr. Hendrick is a good lawyer and will no doubt do good work for his clients.—Paducah Leader.

STILL THEY AIN'T CLEAN.

It is not generally known that Uncle Sam furnishes his legislators with both tubs and other accessories of cleanliness, but it is nevertheless a fact. In the basement of the Capital building are located the Congressional bath-rooms, where lawmakers cleanse their cuticle at the expense of the people. On the House side there are fifteen tubs, while on the Senate side the number is somewhat smaller. They are patronized by the members at all hours of the day. Attendants are provided at the expense of the Government. The fact that the bath-rooms are almost constantly occupied, indicates the extent to which the privilege of the free bath is appreciated. No senators and members who live at home where an extra charge is made for a bath, usually wait until they reach the Capitol to enjoy the luxury. Not only are the state-rooms furnished with both tubs and barber shops are provided for their use. These are well patronized, as no charge is made, and the barbers turn many an honest penny. They receive good salaries from the Government, and at the same time get tips from the patrons.—Washington correspondent Chicago Tribune.

Drummers Must Go.

That the commercial travelers must go to continue to dictate terms to the people of this country is a self-evident fact. During the campaign of 1896 the drummers were enthusiastic supporters of McKinley. They are not so any longer. They are men of intelligence and they have found out that McKinley is bound hand and foot by the trusts and that the trusts have no further use for commercial travelers. With competition decried the drummer's occupation is gone.

THE project to build an electric line from St. Louis to Chicago, a year or so since considered as a pipe dream, has been revived again. Some men in position to control the money needed are this time talking the scheme up and it is a reasonable prospect for the year. It is estimated that \$15,000,000 will build the line and put it in working order and that an equal sum will equip the line with depot, cars and other facilities.

HILL FULLPOT.

Tells How Democracy is Working These.

[From State Democrat.]

STATE CAPITOL, Jan. 5, 1900. Dear Hawk—We are having a Hell of a time up here now. The democrats are practicing all kinds of fraud and corruption and such like. And they are so suspicious it makes me tired. That is they would it wasn't for us keepin' a sharp lookout they can't. They done a nifty mean trick in getting pure Whig out into a trap. A skunk named Harrell invaded John in tribin' him and then he preached on his benefactor. A mean dirty job, takin' advantage on a fellow's trust that you see. You shan't can't trust them thieves, lyn' slanderin' Guleights none. Only I don't believe the pure folk would do it. That's the way it done it.
